Re: March 2019 Revised OU3 Site-Related Groundwater Focused Feasibility Study
Ringwood Mines/Landfill Site, Ringwood, New Jersey

Dear Ms. Liddell:

The U.S. Environmental Protection Agency (EPA) has completed review of the March 2019 Revised OU3 Site-Related Groundwater Focused Feasibility Study (FFS) for the Ringwood Mines/Landfill Site. The FFS was revised to address comments provided by EPA and the New Jersey Department of Environmental Protection in a December 20, 2018 letter.

EPA has determined that comments provided in the December 20, 2018 letter have been adequately addressed in the revised FFS. Therefore, by this letter, EPA approves the FFS.

If you have any questions concerning this matter, please call.

Sincerely yours,

A handwritten signature in blue ink, appearing to read "J. A. Gowers", is positioned above the typed name of the signatory.

Joseph A. Gowers, Project Manager
